SWaM Overall Commitment Percentage Please state here the overall commitment percentage for DSBSD-certified SWaM businesses directly performing the Requirements of this Contract: Note: The percentage above ONLY APPLIES to DSBSD-certified SWaM businesses who are directly performing the Requirements of this Contract. Do not include in the percentage any businesses performing the Requirements of this Contract that are non-SWaM businesses.		Cox Response: Cox provides services and is not a DSBSD-certified business. As such, there is limited opportunity to provide significant overall contract value through qualified subcontractors. Our typical total contract value opportunity for DSBSD subcontractors is less than 1%. Qualified participation is limited to the areas of support in performing certain aspects of installation, construction,	

	<p>maintenance and support of this contract and may include associated business opportunities in marketing, office administration and others in support directly and indirectly of VITA and other Cox customers. Cox maintains an aggressive diversity program with individual system and qualifying subcontractor category goals. Cox actively recruits qualified subcontractors for participation in our program. See attached Cox Supplier Diversity Program and our list of currently available qualified subcontractors.</p>
--	---

**** Cox includes the attached additional information on its substantial diversity efforts.****

Cox has spent more than 3.5 billion dollars with diverse suppliers over the past decade. This year, we want to build on the success. Cox set a goal of spending \$700 million with companies that incorporate diverse vendors into their supply chain as well as companies owned and operated by women, minorities, veterans, disabled veterans, members of the LGBTQ community or people with disabilities.

Field Operations Vendor Management (FOVM) is one Cox organization that's focused on driving diversity through the supply base. FOVM selects and manages vendor companies whose technicians install and repair our Internet, video, phone and security products in homes and businesses. Currently, FOVM has 12 certified diverse vendors and two vendors in the pipeline who are applying for certification. Working in partnership with Supply Chain Management (SCM), our FOVM team sets targets for spending with diverse vendors; increasing the number of certified Cox diverse vendors; and encouraging vendors to diversify their supply chain (Tier 2 spending)."
