Thundercat Technlogy was awarded a contract for network products and services. Thundercat Technlogy represents multiple manufacturers and can provide network products such as Ethernet switches, routers, wireless access points and appliances. In addition, related services such as network design, configuration, installation, training, maintenance and warranty services may be offered.

Thundercat Technlogy can offer a manufactures complete product catalog for authorized users to acquire the necessary network products and services. Discounts are based on percentage off manufacturers list and can vary by manufacturer.

Items excluded from any resulting contract(s) are:

- Voice/Data/Security/AV Communications Cabling Installation Services
- Commercial Off-The-Shelf software *(COTS)*
- Modified Off-The-Shelf software *(MOTS)*
- Audio visual products and services
- Printers and Copiers
- Servers
- Data Center Services
- IT Professional and Consulting Services (except installation and training on products purchased)

VITA recommends that authorized users exercise the Request for Quote clause found in the contract and compete the suppliers when needing network products and services.
