RICHMOND, VIRGINIA 23225

Overview

This Exhibit contain the list of Software products and Tools currently used by the Supplier for the provision of the services part of this Agreement. The license counts included in this exhibit are current at the time of the Agreement Effective Date.

All software currently used in the provision of the Services is expected to be transferred to the new Supplier, with the exception of items tagged "no" in the "Proprietary Product" field of the the "Software Assets (Supplier)" tab. Supplier will be responsible for managing all Software and Tools.

Fields

The table below describes each of the fields included in the forms in this Exhibit.

Heading	Description
Entry Reference Number	Other exhibit(s) or locations that list the software
Type	Type of Software
Vendor	Software Product Vendor
Software Product Name	Software Product Name
Version	Software Product Version number
Does the Product/Tool utilize Artificial Intelligence (AI)?	This is a "yes" or "no" based on if the product or tool utilizes AI. Products utilizing AI may require additional review based on Commonwealth laws and/or policies.
License Count	Field contains the estimated license count for the software product in the existing environment
License Owner	Field denote the entity that owns the agreement with the 3rd party software vendor for the software product as of the effective date.
License Effective Date (yyyy/mm/dd)	License term start date.
License Expiration Date (yyyy/mm/dd)	License term end date.
Maintenance Agreement Owner	Party that executes a license/maintenance agreement with the 3rd party software vendor.
Maintenance Effective Date (yyyy/mm/dd)	Maintenance term start date.
Maintenance Expiration Date (yyyy/mm/dd)	Maintenance term end date.
Product is Used in Solution	Supplier should put an x in this field if 1) Supplier believes the Product is "In Scope" to this RFP (i.e. if supplier believes asset would be used to meet the requirements of this RFP if services were transferred from the incumbent "as is") and 2) Supplier will use the asset in its solution.
Product is Not Used in Solution	Supplier should put an x in this field if 1) Supplier believes the Product is "In Scope" to this RFP (i.e. if supplier believes asset would be used to meet the requirements of this RFP if services were transferred from the incumbent "as is") and 2) Supplier will not use the asset in its solution.
New Product	Supplier should put an x in this field if the supplier is listing a Product that will be new.
Product Disposition Comment (Optional)	Any comment that will aid the commonwealth to better understand the listed Product's disposition and its use in the Supplier solution (e.g. this product replaces product XYZ, this product is replaced by XYZ, this product's functionality does not fall within the scope of this RFP and is incorrectly labeled as being in scope, etc.)
Product Proprietary	Is the product proprietary to your company?
Contract Year 1 Cost (\$)	Product costs included in solution for contract year 1 (license and maintenance)
Contract Year 2 Cost (\$)	Product costs included in solution for contract year 2 (license and maintenance)
Contract Year 3 Cost (\$)	Product costs included in solution for contract year 3 (license and maintenance)
Contract Year 4 Cost (\$)	Product costs included in solution for contract year 4 (license and maintenance)
Contract Year 5 Cost (\$)	Product costs included in solution for contract year 5 (license and maintenance)
