### **Resource Unit Billing Triggers**

This Reference Guide provides brief descriptions of information related to invoice charges for Managed Public Cloud Services. The intent is to minimize disputes and maximize understanding between the parties by clearly specifying the Resource Unit measurement date, system of record, conditions for activation, conditions for deactivation, etc.

Supplier and VITA will work together to complete the Billing Triggers in accordance with SMM 5.1.1 (Invoicing and Chargeback) and the Supplier created SMM 5.XX (ITFM MCS RU Listing - NTT) during the Implementation phase.
