D.	Support & Maintenance Costs	Yearly Costs
<p>Support and Maintenance Costs include:</p> <ul style="list-style-type: none"> • <i>Support Resources: Ongoing technical support. Access to support personnel to assist with client inquiries and issues.</i> • <i>System Maintenance and Optimization: Access to updates, refinements, and optimization guidance for identity proofing workflows and fraud detection performance are part of post-implementation support. This covers ongoing monitoring of system performance, review of decision thresholds, troubleshooting issues, periodic business reviews, ad-hoc reporting, and on-demand training for staff.</i> • <i>Module Improvements: Ongoing enhancements to the various modules used in the Socure platform.</i> • <i>Fraud Insights and Analytics: Provision of data and insights related to fraud prevention and detection.</i> • <i>Support for Integration Questions: Assistance with ongoing integration issues that may arise as the platform evolves.</i> <p>The Decision Module is a core component of the platform that automatically ingests identity, fraud, and compliance signals from multiple sources (such as PII, device, behavioral, and risk scores) and computes a decision result—such as approve, deny, or manual review—for onboarding, transactions, or case management. It is used to power real-time adjudication, automate risk assessment, and trigger workflows based on intelligence from the identity graph and rules engine, helping organizations efficiently manage fraud, compliance, and customer journeys at scale.</p>
